# INTRODUCTION

FLANIGAN-PEARSON CO., publishers of the Champaign and Urbana City Directory, present to subscribers and the general public, this, the 1949 edition.

Confidence in the growth of this community's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Champaign and Urbana to the world.

The enviable position occupied by the Champaign and Urbana City Directory in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty coöperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Champaign and Urbana Directory will fulfill its mission as a source of authentic information pertaining to the community.

## Five Major Departments

The five major departments are arranged in the following order—

THE MISCELLANEOUS DEPARTMENT presents lists of city and county officials; statistical reviews; manufacturing, trade and civic surveys; and a history of the University of Illinois.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in the section on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Champaign and Urbana, and the name, official personnel, nature and address of each firm and corporation.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 44, on canary paper, contains the advertisements of leading manufacturing, business and professional interests of Champaign and Urbana. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Champaign and Urbana, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 501 to 548. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it

plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, covers pages 561 to 681. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

### Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Champaign and Urbana.

### The Champaign Directory Library

Through the courtesy of the publishers of the Champaign and Urbana City Directory, a Directory Library is maintained in the offices of the Champaign Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

### CHAMPAIGN

#### Statistical Review

FORM OF GOVERNMENT—Commission.

POPULATION—1940 U. S. Census, 23,302; local estimate at present, 35,000. American-born, 97.6%. Predominating nationalities of foreign-born residents: German and English.

AREA—10 square miles.

ALTITUDE—743 feet above sea level.

CLIMATE—Mean annual temperature, 50.5 degrees F.; average annual rainfall, 35.03 inches.

PARKS—24, with total of 36 acres.

ASSESSED VALUATION—\$84,240,199, with \$1.72 per \$100 tax rate.

FINANCIAL DATA—4 banks, with total deposits of \$43,214,414.93 (Dec. 31, 1948), and total resources of \$45,254,798.93 (Dec. 31, 1948).

POSTAL RECEIPTS—\$531,319 (calendar year 1948).

TELEPHONES IN SERVICE—13,258 (Feb., 1949).

CHURCHES—39, representing 22 denominations.

INDUSTRY—Chief industries of city and surrounding territory: Manufacturing and agriculture. 15 major manufacturing establishments, employing 1,740 workers, paying wages of approximately \$3,600,000 annually. Principal manufactured products: Drop forgings, gloves, bleachers, soy bean oil, road machinery, cement products, academic apparel, alloy castings, refrigeration and air conditioning equipment and railroad registers.

TRADE AREA—Retail area has radius of 35 to 50 miles, and population of 200,000.

NEWSPAPERS—3 daily and Sunday.

HOTELS—3, with total of 354 rooms. Also 7 small hotels.

RAILROADS—4: Illinois Central (main line), New York Central (branch line), Wabash (branch line), and Illinois Terminal (electric).

HIGHWAYS—U. S. 45 and 150; State 10.

AIRPORTS—2.

AMUSEMENTS—Largest auditorium in city seats 3,000 persons. 6 moving-picture theatres, with total seating capacity of 5,500 persons. 2 golf courses.

HOSPITALS—1, with 160 beds.

EDUCATION—University of Illinois. 12 public schools, including 1 senior high and 1 junior high. 2 parochial schools. Number of pupils in public schools, 4,000; in parochial, 420.

PUBLIC LIBRARIES—1, with 60,188 volumes.

CITY STATISTICS—Total street mileage, 97, with 66 miles paved. Miles of gas mains, 88; sewers, 130. Number of water meters, 11,806; light meters,

9,865; gas meters, 7,749 (Champaign). Capacity of water works, 9,000,000 gallons; daily average pumpage, 4,000,000 gallons; length of mains, 671,752 feet (Champaign and Urbana). Fire department has 21 men, with 1 station and 6 pieces of motor equipment. Police department has 29 men, with 1 station.

### General Review

Champaign originated in 1854, when the Illinois Central Railroad built its main north and south line two miles west of the village of Urbana. The village started at the railroad and was incorporated at that time as the village of West Urbana, its name being changed to Champaign in 1857. In 1860 the village of Champaign was incorporated as a city.

Champaign owes its growth to an act of the legislature in 1867, which awarded the University of Illinois to Champaign County. The steady growth of the University has been reflected in the growth of Champaign. The original location of the University was in Urbana adjacent to Champaign, but due to the expansion of the University, part of its grounds and buildings are on property originally part of Champaign.

Champaign is served directly by the main line of the Illinois Central Railroad; by the Indianapolis-Peoria division of the Big Four (New York Central); by the Wabash; by the Danville-St. Louis division of the Illinois Terminal (electric) Railroad; and by bus lines, including the Greyhound Line to Chicago, St. Louis, Indianapolis, Peoria and other points.

Several Federal and State paved highway routes converge in Champaign. These routes, and the many paved County highways radiating in all directions, together with excellent transportation facilities offered by rail and bus routes, make Champaign one of the leading down-state traffic centers.

Due to its location in a rich section of east central Illinois and to the large student body attending the University, Champaign has a large retail business. Its stores offer exceptional stocks of merchandise to customers who come from a wide area to shop here. Estimates based on the Retailers Occupation Tax paid by Champaign retailers, reveal that annual retail sales in Champaign for the year 1948 amounted to more than \$63,000,000.

Champaign and Urbana are served jointly by all utilities, and together have one of the finest sanitary districts and sewage-disposal plants anywhere. This plant has been widely copied by other cities. Rebuilding of plant and extension of mains now under way.

With the commission form of government, a modern police department, and its fire department on the platoon system, Champaign is up-to-date and well equipped to handle its City business.

The large stadium and the men's gymnasium of the University located in Champaign bring the thousands of people who attend athletic events at the University directly to Champaign. The football games in the fall and the basketball games in the spring attract immense crowds from all sections of the state.

There are two Champaign airports. The University of Illinois Field is five miles southwest of Champaign, and, is a Class 4 airport and is one of the best in the U S. It is available for commercial use. The Champaign Airport, a private field, is located three miles northwest of Champaign and has facilities for storage and servicing of aircraft.

PUBLIC LIBRARIES—1, with 35,000 volumes.

CITY STATISTICS—Miles of streets, 51, with 37 miles paved. Fire department has 11 men, with 1 station and 3 pieces of motor equipment. Police department has 14 men, with 1 station.

### General Review

Urbana, the “Home of the University of Illinois,” was founded as the seat of Champaign County in 1833, and 22 years later was chartered by the State Legislature. In 1867 the University of Illinois, which today has an enrollment of 19,500, was established in Urbana as a land-grant agricultural college.

Urbana is a dynamic community, as indicated by a 7.7% population increase between 1930 and 1940, and an estimated 28% increase since 1940. A larger university enrollment, greater farm purchasing power, the development of industries, and the location of the Air Corps Technical School at Chanute Field, 14 miles northeast, have been factors in bringing about this increase.

The City's affairs are administered by business men in a business-like manner. A municipal debt is being rapidly diminished and no further indebtedness incurred.

An outstanding characteristic of the economic life of Urbana is stability. This is largely due to the payroll of the University, which tends to hold up during otherwise slack times. Also, the community is very diversified industrially, the largest plant being the New York Central Railroad shops, which employs about 350 men. The degree of fertility of the surrounding farm lands adds to the stability.

Urbana has become known as a residential center. 60% of its residents are home-owners. University faculty members, most of whom are here permanently, create a demand for good homes. A large proportion of the 350 officers and many enlisted men stationed at Chanute Field live in Urbana, and commute.

As a result of the location of the University here, an unusually literate population makes Urbana a most desirable city in which to live and rear children.

The Illini Airport, containing 160 acres of level land and located on Route 45, only 2.3 miles from the business district, offers first-rate landing facilities. It is licensed as an airport by the Illinois Aeronautics Commission.

Being "The Home of the University of Illinois," Urbana is an educational center and consequently a convention center as well. Approximately 150,000 people, from all segments of the business and professional world, are attracted here annually by conventions, institutes, and short courses. Those attending the sports events at Red Grange's alma mater add to this number.

Because of the large student and faculty population, as well as the high farm purchasing power, Urbana is an important retail center with annual retail sales of more than \$5,000,000. Adequate parking space is one of the factors that make it attractive as a shopping center. The Association of Commerce provides three strategically-located free parking lots.

Leading manufactured products of Urbana are knock-down bleachers, butter and dairy products, athletic equipment and supplies, electrical supplies, chemical supplies, paints, castings, dehorner's, cigars, harness, ice cream, burial vaults, mausoleums, high-powered microscopic lenses, scientific instruments, x-ray apparatus, and concrete ornaments. Urbana is also the home of the Urbana Laboratories, Inc., noted as makers of seed cultures.

In Urbana are located shops of the N. Y. Central Lines, which employ the largest number of men in any single industry of the city.

Urbana possesses very adequate transportation facilities, including the Big 4 (New York Central) Railroad, giving services to the east and west; the branch line of the Wabash, running to Sidney, and the Illinois Central, affording frequent services to Chicago and to the South. "A train your way every hour of the day" is provided by the Illinois Traction System, with accommodations east and west. Connections are made at Glover by trolley with the Chicago & Eastern Illinois Railroad for Chicago and St. Louis and by bus at Tolono with the main line of the Wabash for St. Louis and Detroit. Three Federal and State paved highways and many paved County roads extend in all directions, and bus service is given on all Federal and State highways.

Among other points of interest in Urbana besides the University of Illinois and its many attractions, are the Samuel T. Busey Library; the Outlook Tuberculosis Sanatorium; Cunningham Home of Children; Mercy Hospital; the Margaret Carle Memorial Hospital; one of the most up-to-date sanitary disposal plants in the country; a 110-acre, 18-hole golf course and country club; the Wesley Foundation; the State and Government experiment stations; the Urbana

Park District's \$100,000 outdoor swimming pool, the finest in Illinois; and the \$250,000 First Methodist Episcopal Church.

An authority writes: "Urbana, home of the most important manufacturing plant in Illinois—that plant is the University of Illinois. Its raw materials are youth and ambition. Its product is men and women."

Detailed information concerning either the city, the University of Illinois, or the surrounding community and state, will be gladly supplied upon request by the Association of Commerce; address, 120 West Elm Street. An adequate, complete, and up-to-date information file is maintained. Accessibility of one of the best services of information in the state, the University of Illinois Library, with 2,000,000 volumes, makes such a file possible.

URBANA ASSOCIATION OF COMMERCE

---

## The University of Illinois

**"A VAST LABORATORY OF SCIENCE AND CITIZENSHIP,  
BUILT BY AND FOR THE PEOPLE."**

The University of Illinois main campus of 445 acres, intersected by Wright and Green streets in the twin cities of Champaign and Urbana, has an adjoining 1,296 acres of experimental farms. Additional experimental farms are located in 25 other counties of the state. The University's entire plant is valued at \$52,283,348.

Six miles south on U. S. Route 45 is the University's 770-acre airport, largest owned by any educational institution. Its three concrete runways, each 5,300 feet long, are capable of handling any plane, regardless of size. Used for both education and research by the University's Institute of Aeronautics, the airport is equipped with a fleet of 30 new training planes, and a corps of flight instructors is composed principally of World War II veterans. The airport is utilized also for commercial and private flying.

There are two campuses in Chicago. One is a part of the Illinois Medical Group, is one of the greatest such centers in the world. Here are located the University's Colleges of Medicine, Dentistry, and Pharmacy, the School of Nursing, and Research and Educational Hospitals, and institutes dealing with health sciences. The principal building occupies an entire block on the south side of Polk Street, from Wood to Wolcott Streets, on the near west side. The value of the buildings and equipment there exceeds \$10,500,000.

Emergency undergraduate divisions of the University are in Chicago occupying a part of Navy Pier, and in Galesburg.

Credited with research benefits estimated to be worth "more than \$100,000,000 a year," the University has been described as "one of the ten best educational institutions."

Newest of the 81 buildings on the Urbana-Champaign campus will house a 300-million volt betatron, which is planned to produce cosmic ray effects in the laboratory. The betatron type of instrument, useful in industry, medicine, and research, was invented at the University in 1940. Many of the University's laboratories are among the finest in the nation.

Scheduled for completion soon are new chemistry, mechanical engineering and electrical engineering buildings, and a dormitory for women.

The \$1,500,000 Illini Union Building, "front door of the campus," is of the colonial style of Williamsburg, Va. Altgeld Hall is famed for its Romanesque architecture and its chimes. The library contains more than 2,500,000 items. The museums are noted for 500,000 natural history specimens, research collections, and historical materials. Near the "Broadwalk," said to be the busiest student thoroughfare in the world, is the "Alma Mater" group by Lorado Taft, noted alumnus.

Southern Exposure, Illini Union Building, University of Illinois

At Urbana-Champaign are the Colleges and Schools for Agriculture, Commerce and Business Administration, Education, Engineering, Fine and Applied Arts, Graduate study, Journalism, Law, Liberal Arts and Sciences, Library, Music, Physical Education, and Veterinary Medicine. Other teaching units on this campus are the Aeronautics Institute, Communications Research Institute, Government and Public Affairs Institute, Labor and Industrial Relations Institute, Military Bands Department, Military Science and Tactics Department, Naval Science Department, Social Welfare Administration Division, Special Services for War Veterans Division, Summer Session, and University Extension Division.

Research and Service units at Urbana-Champaign are the Agricultural Experiment Station, Community Planning Bureau, Economic and Business Research Bureau, Educational Research and Service Bureau, Engineering Experiment Station, Extension Service in Agriculture and Home Economics, general Placement Bureau, High School Testing Bureau, Institutional Research Bureau, Radio Station, Small Homes Council, Student Personnel Bureau, and University of Illinois Press. Also located on the campus, and co-operating with the University are the Illinois State Geological Survey, Illinois State Natural History Survey, Illinois State Water Survey, and the U. S. Regional Soybean Laboratory.

Enrollment at Urbana is 23,450 (1948-49), and the staff approximates 7,500.

The University's influence is world wide. Its graduates are doctors and teachers, lawyers and executives, engineers and farmers, men and women whose leadership and service have been of benefit to their communities, state and nation since the University opened 80 years ago. Benefits of University of Illinois research extends into homes, buildings, health, highways, railways, government, industry, agriculture, and almost every field of human interest and activity.

The task of the University is to train men and women and to carry on research and service. More than 175,000 have gone out from its halls since 50 students sat in the first class, March 2, 1868. Of the alumni, 158,000 are still living and busy in the world's affairs. More than 20,000 alumni were in the nation's armed services in the recent war, and 850 gave their lives.

From a quarter of a century of University research with soy beans came the agricultural resources which provide oil, plastics and food needed today. Better farm crops, better farm animals, and better farming methods of vital importance to every citizen are constantly in the process of development.

The University's research during 25 years improved the railroad rails, wheels and brakes, completely revised some of the old concepts of metals, and resulted in important contributions to the development of synthetic rubber.

The State of Illinois was the last in the old Northwest Territory and in the Corn Belt group to establish a state university. Michigan, Indiana, Wisconsin, Minnesota and others had founded schools and turned out classes of graduates before Illinois legislators—largely through the efforts of the late Jonathan Baldwin Turner—a Jacksonville (Ill.) educator—established a State school at the twin cities of Urbana and Champaign in Champaign County.

In 1868 the Illinois Industrial University came into being. Governor Oglesby had approved the act incorporating the State University in 1867. A board of regents was chosen, and the Rev. John Milton Gregory, then president of Kalamazoo College at Kalamazoo, Mich., was named as the first regent. The University opened March 2, 1868, with an original registration of 50 students. The first curriculum was offered by a faculty of three. During the first term, instruction was given in algebra, geometry, physics, history, rhetoric and Latin.

The new institution grew rapidly, and by the end of the term, had 77 students and another faculty member. It soon stepped into the forefront of institutions

linking practical laboratory work with classroom teaching. In 1868 laboratory work in chemistry was provided. In 1869 laboratory work in botany began. The first shop instruction in any American university was begun in 1870, when a mechanical shop was equipped, and the next year wood shops and a testing laboratory were erected.

In 1870 the trustees voted to admit women students, and that fall 24 co-eds were enrolled. Certificates of accomplishment had been awarded students completing work, but in 1877 this was changed with the awarding of diplomas and conferring of degrees. In 1885 the name of the institution was changed from Illinois Industrial University to University of Illinois.

Growth of the academic departments has been steady and rapid. Graduate work began in 1892. Summer sessions started in 1894. Studies in law were organized as a school in 1896 and as a college in 1900. The School of Music was organized in 1897, and now is a part of the College of Fine and Applied Arts, which was organized in 1931. Business training was started in 1900, and organized into the College of Commerce in 1915. The School of Education was organized in 1905, and became a college in 1918. The School of Physical Education was organized in 1932. In 1897 the Library School was created by the acquisition of the School of Library Economy, which had been organized at the Armour Institute in Chicago in 1893, and was the fourth library school to be established in the nation. Journalism instruction was started in 1902, and the School of Journalism was organized in 1927.

The Chicago campus, now a part of the city's great West Side medical center, was started in 1896, when the University of Illinois acquired the Chicago College of Pharmacy, which had been founded in 1859. It was known as the School of Pharmacy until 1932, when it achieved college status. In 1897 the College of Physicians and Surgeons of Chicago, established in 1881, became affiliated with the University of Illinois, and in 1913 became a part of it. The Columbian Dental College, established in 1898, became affiliated with the University in 1901, and in 1905 was organized as the College of Dentistry. In 1941, Rush Medical School became affiliated with the University, and its staff was added to the faculty.

Meanwhile, organized research developed alongside student training, on the basis that the duty of a great institution of this sort is not only to train new workers in every field, but also to discover and develop new knowledge. Agricultural research was begun at an early date, and the Agricultural Experiment Station was organized in 1888. The oldest soil-experiment fields in the nation and oldest corn experiment fields in the world, the Morrow plots, have been in continuous cultivation at the University of Illinois since 1876. The Engineering Experiment Station, first of its kind in America, was established in 1903; the Bureau of Educational Research was established in 1918; the Bureau of Business Research, in 1921; the Bureau of Community Planning, in 1934; and the Small Homes Council, in 1944. The University is headquarters for the Illinois State Natural History Survey, State Water Survey, and State Geological Survey.

Of every operating dollar, more than 13 cents is spent directly for organized research. In addition, general research is carried on under the various colleges and schools comprising the University. Results of research are published by the University for the benefit of everyone. Outstanding research has been carried on, and is still being carried on, in many fields, among them agriculture, railway engineering, civil engineering, home heating and air-conditioning, physics, chemistry and chemical engineering, and medicine.

The office of executive head of the University has been held by nine persons previous to the present president: Dr. Milton Gregory, regent from 1868 to 1880; Dr. Slim Hobart Peabody, regent protempore from 1880 to 1881 and regent from 1881 to 1891; Dr. Thomas Jonathan Burrill, acting regent from 1891 to 1894; Dr. Andrew Sloan Draper, president from 1894 to 1904; Dr. Edmund Janes James, president from 1904 to 1920; Dr. David Kinley, acting president from 1919 to 1920, and president from 1920 to 1930; Dr. Harry Woodburn Chase, president from 1930 to 1933; Dr. Arthur Hill Daniels, acting president, 1933-1934; and Dr. Arthur Cutts Willard, president, 1934-1946. Dr. George Dinsmore Stoddard became president of the University on July 1, 1946, when President Willard retired.

Control of the University of Illinois is in a board of trustees consisting of the Governor and the State Superintendent of Public Instruction acting ex-officio, and nine regular members elected directly by, and responsible to, the people of the state. Administrative offices are located in Urbana-Champaign.

## When You Want to Know:

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- YOU CAN QUICKLY FIND THE ANSWER IN THE CITY DIRECTORY.

## PLEASE! Do Not Lend Your City Directory

IT COSTS YOU MONEY — Every Time It Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

## CHAMPAIGN-URBANA

Directory of Householders, Occupants of Office  
Buildings and Other Business Places,

INCLUDING

A Complete Street and Avenue Guide

### 1949

Copyright, 1949, by Flanigan-Pearson Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with Named Streets in their regular Alphabetical order.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes householders and places of business having telephones.

## When You Want to Know:

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- YOU CAN QUICKLY FIND THE ANSWER IN THE CITY DIRECTORY.

*A City Directory is a*  
**Community Necessity**

# SOCIETY—

may change its manners, its modes, its way of dining, its drink or its degree of politeness but there always remain certain things that simply must be done, and these continue through all the changes that come and go.

Prominent among the necessary things society demands are the social forms such as wedding invitations and announcements, reception and at home cards, birth announcements, sympathy acknowledgment cards, party invitations, name and calling cards and many similar forms.

Custom has established the form for all social items—it remains for the printer to supply fresh styles, new stocks and helpful counsel—that we try to do.

## HERCULEAN TASKS . . .

have been accomplished by the American people. We built our nation, won its wars, established its industry, and raised our standard of living to a degree where it has the envy of the world. None of this could have been accomplished without coordinated effort. Where many people work collectively towards a single objective, it is as necessary to success as the objective itself. It is a powerful force that makes our printing plant efficient. Every order we receive provides us with a new objective—to produce with economy truly excellent printing. To reach each new objective takes coordinated effort on the part of everyone working on the order. Such effort has made our plant a symphony of smoothness that means three things to you—excellent work, speed, and more value per dollar spent.

# Over Half a Century of Service

For more than half a century our records have served the people of Champaign County. Throughout all these years, daily postings have kept our abstract records completely and accurately up-to-date.

ABSTRACTS OF TITLE and Title Searches, prepared in modern and approved forms from these records will protect your titles and safeguard your investments. Every abstract of title prepared through our facilities is accurate, reliable and merchantable.

WE ARE OWNERS of several sets of abstract records, the only complete set of Abstract Records in existence in Champaign County. We are members of the Illinois Title Association and of the American Title Association.

«-:-»

## Title Guarantee Insurance

«-:-»

The personnel of this organization are all residents of Champaign County, Illinois, having been born, reared, and educated in this community, and are primarily concerned that its clientele receive the highest degree of title service, which is possible to render.
